PHARMACY RECERTIFICATION OCTOBER 30, 2015

ALL SVMCA PROVIDERS:

EMS drug boxes and IV kits will be recertified through the pharmacies on October 30th, 2015. All boxes and kits will need to be put through a participating pharmacy during the early morning hours.

The following are changes for this recertification:

1. Dopamine
 - Due to varied availability, will continue to not be stocked in the EMS drug boxes.
2. Vasopressin
 - Will no longer be stocked in the EMS drug boxes.
 - The cost of the drug has increased from around \$2 per vial to almost \$87 and now requires refrigeration.
 - Epinephrine will be used exclusively.

There will be no changes to the ALS or BLS kits.

On a side note, naloxone has been issued to all EMS agencies. If a BLS or MFR agency uses their naloxone during patient care, they are to restock both the drug and the atomizer from the responding ALS unit's drug box. The EMS Drug Form and replacement of the box will be the responsibility of the ALS unit that responds.

If you have any questions or concerns, please feel free to contact our office.

A handwritten signature in black ink, appearing to read 'Eric Snidersich'.

Eric Snidersich, BS EMT-P
EMS Manager, SVMCA
