MEMORANDUM #2011-11

FROM: Office of the Medical Director
Saginaw Valley Medical Control Authority (SVMCA)
1000 Houghton Ave.
Saginaw, MI 48602

SUBJECT: PHARMACY RECERTIFICATION – October 2011

The following is a summary of changes to the EMS Medications Boxes and Mini-Kits for October 21, 2011:

MEDICATION BOXES

Diazepam

Currently the hospitals are experiencing difficulty procuring diazepam for the EMS boxes. This is due to a market-wide shortage. Therefore, the number of diazepam vials in the EMS Medication Box will be reduced from four (4) to two (2). This leaves 20 mg of diazepam still available in each box. The diazepam pulled from the boxes will be saved to help our system through the shortage which is expected to last into the 1st quarter of 2012.

ALS MINI-KITS (Blue Bags)

There will be no changes except that the laminated inventory tag on the zipper will now be red to match the armband color on the handle.

BLS KITS (Orange Bags)

No changes. We are currently working towards issuing the BLS kits to all of the EMT provider agencies. Please remember; once the orange bags are in the field, medications (except Epi-Pen) will be done on a one-for-one basis with the responding ALS units.
